

AsdeqServer

About AsdeqServer

The AsdeqServer Solution:

- Is the server side infrastructure that manages all aspects of both AsdeqDocs and AsdeqForms
- The AsdeqServer can be run as a single server or in a cluster for improved performance
- And can be spun up on premise, in the cloud or as a hybrid solution
- It manages all
 - integration with 3rd party solutions
 - aspects of security and device management
 - emails and notifications
 - Smart Form workflow and approvals
 - business intelligence
